

HOPE CHEST

Made especially for Kelly Hendrex

By Ms. Vaughn

If you are reading this that means you have reached the point of almost breaking down. But before you do take some time to look at the things inside your family and I have given to you to remind you that you are a strong and determined young lady.....find the strength inside and to push on. Reaching this point in Wildcadets is something few can say there have been a part of. **A select few.** Remember that. I have all the faith in the world that you and your officers will come out with the **GOLD** and have a very successful **2005-2006 Wildcadet Year.**

*The **Eyes** represent everyone who is watching over you right now. God, Ms. Vaughn, Ms. Godoy, your family, and fellow officers. We are all here for you.

*The **flower** represents something I wish I could give you before each time you perform for Good Luck.

*The **Teddy Bear** is there for whenever you need a hug from me!

The **Dice** represents the chances you will have to take as you and your officer's face the many challenges this week.

*The **Smiley Face** represents all the laughs you will have once this experience is over. We all will become so much closer and have many inside jokes to share.

*And last the **Inspirational Bead** is for you to remember that God is watching over you and he would not have placed you in the 2005-2006 Military Officer line if He knew you couldn't handle it.

The rest is from your family. Be sure to thank them for taking the time out to do this for you.
